STATE	WAR	NAVY	JUSTICE	AAF					

- Under the two-year treaty recently signed in Moscow by the Bulgarian Delegation headed by Vice-President Traicho Kostov, Russia has undertaken to provide Bulgaria with medicines and pharmaceutical products to a total of U.S. \$400,000 during the year 1947.
- Among the articles to be supplied by Russia are all kinds of sanitary accessories, chemical products, surgical instruments, and other requirements for medical and pharmaceutical laboratories.
- It was likewise agreed that three specialists from the Russian Ministry of Medical and Pharmaceutical Industry shall be sent to Bulgaria to study conditions in that country and to make special recommendations in regard to the particular medical and pharmaceutical requirements of the population, so that Russia may take the necessary measures to manufacture what is needed.
- In addition, six or seven Bulgarian chemists are to be sent to Russia to study Russian methods, with a view to introducing similar methods in Bulgaria.
